EDUCATION

B.S. Computer Science
Bicol University 2020 - 2024
Legazpi City, Philippines

Awards and Honors
- Dean's Lister
- Service Award - Scientia Publication Artist (2020 - Present)
- With Honors (Grade 10 - 12)

SKILLS

Programming Languages
- HTML & CSS
- Javascript
- PHP

Designing
- Figma
- Adobe Photoshop
- Adobe Illustrator
- Medibang Paint

Personality
- Collaborations Skills
- Computer Literate
- Can work under pressure
- Self-Motivated
- Fluent in English

Computer Science fresh graduate from Bicol University passionate about merging technology with creativity. Experienced in Front-End and Back-End Development, with a strong UI/UX design proficiency and skills in Photoshop and Video Editing. Specialized in Front-End development during my academic journey, focusing on creating compelling user interfaces. As an intern at Link Realty Inc., I transitioned from I.T. intern to web designer and full-stack web developer, enhancing both my design and development capabilities while bolstering the company's online presence in real estate. Also served as the full-stack developer for our thesis project, contributing to its successful implementation.

PROJECTS

JobSearch

Front-End Developer

📅 October 2021 - December 2021
- Collaborated with the project team to define the overall user experience and design requirements for the JobSearch platform.
- Translated design mock-ups and wireframes into interactive and responsive user interfaces using HTML, CSS, and JavaScript.
- Worked closely with the back-end development team to integrate front-end components with the back-end infrastructure.

FaceOPolice

Front-End Developer

📅 September 2022 - May 2023
- Collaborated with the project team to understand the requirements and user interface design for the FaceOPolice desktop application.
- Developed the front-end architecture and user interface using technologies like Java with Scene Builder, and Netbeans.

TeleChurn

Full Stack Developer

📅 September 2023 - May 2024
- Designed and implemented responsive and user-friendly web applications, ensuring seamless navigation and optimal user experience across various devices.
- Utilized cutting-edge front-end technologies such as HTML5, CSS3, JavaScript, and React.js

AFFILIATIONS

- ACCESS (Academic Consortium of Computer Science Students)
